The Scoring System

The scores for each category are marked from 5 for the best scenario to 1 for the worst.

- (1) 5 means clients are unlikely to see another car in the park, 1 means that they are likely to see 10 or more cars in a day
- (2) 5 means large numbers of game all across the park, 1 means small numbers and in isolated spots
- (3) 5 means park is green, vibrant and at its very best, 1 means park is dry and most probably heavily burned
- (4) 5 means viewing almost guaranteed, 1 means viewing unlikely
- (5) From July until January the seasonal river camp is in operation and so the boat safari is at its best because we can enjoy the early morning and late evening conditions
- (6) 5 means all roads are accessible, 1 means most roads are closed by the rain
- (7) 5 means warm days, cool evenings and low humidity, 1 means uncomfortably high temperatures and high humidity
- (8) 5 means excellent viewing including many unusual migrants. Bird numbers are always excellent in the Park
